Great workshop, a lifetime experience of wonderful surgeries. Simply brilliant mentors with expertise & patience. Hands-on was adequate & awesome. Our faculty & training team- mates were so friendly. The Workshop venue- RALC was perfect. Thank you all, the organizers, the faculty, RALC Team. It was seamless. Wishing to enrol for more of these workshops in future. Will miss everybody.

It was a very well organized and executed course. A satisfying treat for all the academically eager laparoscopic surgeons. My heartfelt gratitude to all the course organisers, masters and tutors for sharing this passionate learning with us, trust me it's infectious and I am eager to apply it and improve on it once I return. Salute to you all.
