

# 9TH IAGE CADAVER COURSE

A course with great emphasis on surgical anatomy. I felt we can't learn anatomy anyway better than this. Most of the time we get stuck in surgery not because of our dissection, but because of not understanding the predictive surgical anatomy.

## Feedback from a Delegate

## MORE FEEDBACKS

It was wonderful experience  
I learned many crucial n genuine steps from all the faculties  
I visited all the tables  
Many vital steps which is essential for radical hysterectomy n for endometriosis  
I'm grateful to all the faculties, IAGE and Dr Krishnakumar for starting this course in India.

This Cadaveric course was very good and beneficial for me for enhancing my surgical skills. I thank the whole team, the faculty and course masters for guiding and motivating us. Must appreciate the efforts of the course to be conducted in India

Thank you dear mentors for motivating me to join this course and learn the retroperitoneum  
Thanks for helping me overcome my fears and move ahead in the amazing world of laparoscopy

IAGE cadaveric course was one of the best laproscopic courses I have attended in my life. I was able to understand the pelvic neuro anatomy better so that I could do nerve sparing surgery. I learned para aortic lymph node dissection, bowel resection, Burch, and ureteric reimplantation. More importantly, I became confident to do more advanced Lap surgeries. I have been doing laparoscopy for the last 20 years, but this course has increased my confidence to do more complex surgeries. I feel that there is no need to travel to any where in the world to learn laproscopic anatomy when such a wonderful cadaveric course is conducted by IAGE in India

I think it is one of the best Gynae Laparoscopic courses for all aspiring Gynaecologist who want to pursue their career in Gynae Endoscopic surgery. This course has also taught me the finer details of of neuroanatomy relevant to gynae lap surgery. Coming back I am more confident to carry out these advanced Gynaecology Laparoscopic surgeries This course is a game changer in my life  
This course has truly been a great learning experience for me I also want to mention that I am truly indebted to the souls (body) on whom we could do the surgeries !!  
Thanks to RALC for conducting the course & taking care of us I would like to advise all the budding GYNaeologists to attend this course if they want to pursue their career in Laparoscopic surgeries  
I can say that this is the highest pilgrimage for Gynae lap surgeries
